

ClearlyRated for HubSpot

Connect All Your Data and Act on Insights Faster

**“Integrations are an
investment in increasing
retention and expansion.”**

- *Lacey Partipilo,
Vice President of Client Success at Xenium HR*

A World Stacked with Tech

Today professional service firms are using multiple SaaS vendors and their CX data is often siloed outside of the platforms they use leading to disconnection.

Employees waste time switching between vendors to find CX insights

More experience management actions are left to manual processes

Inefficiencies lead to missing opportunities to cross-sell and lower churn

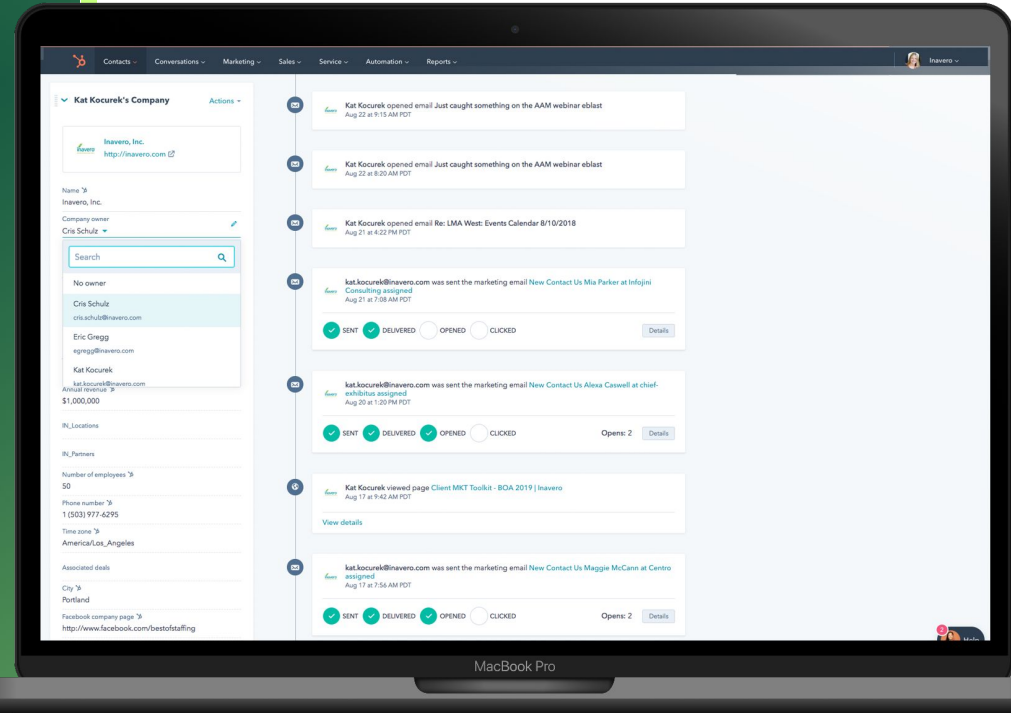

Why integrate?

Our most successful clients integrate ClearlyRated with their existing platforms so powerful CX insights live in the vendors they already use everyday.

- **Save** time, energy, effort and money
- **Access** experience data in the platforms you already use everyday
- **Automate** surveys sends and other workflows based off NPS scores
- **Address** client concerns immediately with automated replies and emails
- **Go** from data gathering to action, faster
- **Be prepared** with real-time insights and historical trends
- **Add** a layer of data validation and cleanliness
- **Identify** cross-sell opportunities and at-risk business faster and easier

Integrations: HubSpot

- Enables survey automation
- Available on HubSpot Marketplace
- Adds layer of data validation
- Auto syncs CR survey data with HubSpot

Thank you
